FULVIC ACID TRACE
MINERAL COMPLEX

U N + T Y
R E S E A R C H

cardioMIN™ is a black ancient plant powder, untainted by man for 10,000 years yet not yet fossilized like humic shale or other mineral sources. It is not rock, but plant. Harvested from veins of untouched ancient plant deposits buried by bentonite clay and volcanic ash in the virgin soils of southern Utah and then leached by a water process to draw all out only the minerals.*

Phytovation has added 100% organic fruit flavors to cardioMIN™ and provide it for you in an easy to use, totally organic flavored beverage in a 300 ml bottle.*

Fulvic acid trace mineral complex is rich in electrolytes and contains over 72 trace minerals and 16 amino acids.*

cardioMIN™ has been tested and found to contain high concentrations of Fulvic Acid (up to 12%), a highly beneficial organic acid used in detoxification of heavy metals and immune boosting properties.*

- A Free Radical Scavenger and an Antioxidant*
- Powerful Organic Electrolyte Properties*
- An Aid in Increasing Nutrient Assimilation*
- An Aid in the Elimination of Harmful Toxins*
- Mineral Absorption*
- Improved Overall Function*

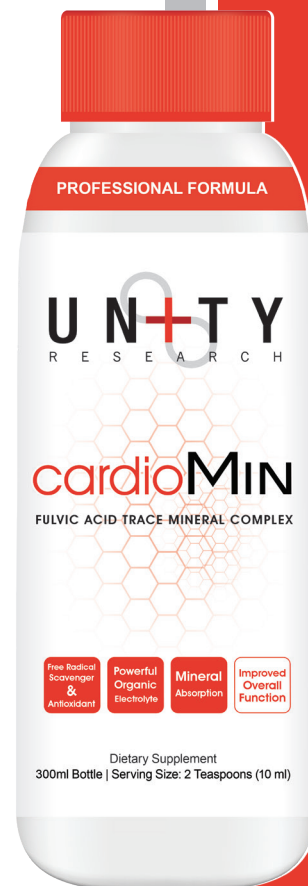

Recommended Usage: Take 2 teaspoons daily (one dosing cap of 10 cc).

Storage: Keep tightly closed in a cool, dry place in the original container. Do not expose to excessive heat. Store out of direct sunlight.

Caution: If pregnant or nursing, consult a physician before use. Keep out of reach of children.

DO NOT USE IF SEAL IS BROKEN
